CBRFC Support/WFO Collaboration

Annual Appeal to WFOs

- (1) What are the specific areas/projects where we could help you improve your program?**
- (2) Much of the contact between the RFC and the WFO is made through the Service Hydrologist/Hydrologic Program manager. What is their assessment of the service received from the CBRFC?**
- (3) What is the single most challenging problem in your Hydrology Program?**
- (4) Are there additional areas of collaboration you desire?**

CBRFC Support/WFO Collaboration

**Number one problem where CBRFC could help:
Better/Detailed Flash Flood Guidance**

Other Suggestions:

More Station Visits (To/From)

Distributed Modeling

Drought/Low Flow Information

Good Comments:

Excellent WEB Page

Excellent Coordination Between Staff/HPM

Great Response in AZ Burn Area

Only 4 Responses(?)

CBRFC Area/Basin Meeting – March 10-12, 2003
