

2018 CBRFC Stakeholder Engagement Forum

Date: November 15, 2018

Location: SRP Offices 1500 N. Mill Ave., Tempe, AZ 85281

Theme: Unique Innovations for Unique Hydrology in a Dry Climate

Goals:

- (1) To update stakeholders on recent updates and advancements at the CBRFC, particularly pertaining to model and forecast development and product delivery
- (2) To highlight current applications of CBRFC's data, products, and services across a wide variety of stakeholders over the CBRFC's area of responsibility, while also discovering opportunities for the CBRFC to improve decision support services for its stakeholders
- (3) To facilitate discussion and collaboration between stakeholders who may be able to apply methodologies presented at the meeting to their own operations

Background:

CBRFC's annual stakeholder engagement forum is important for assessing stakeholder needs and determining priorities for the CBRFC. In 2018, the CBRFC is inviting attendees to three engagement forums which will emphasize regional issues (i.e., the Great Basin, Lower Colorado River Basin, and Upper Colorado River Basin). Reports from past forums have helped to determine CBRFC projects as well as other activities in the NWS and NOAA.

Additionally, the CBRFC will update stakeholders on recent advancements to the CBRFC's forecasting methodology and planned improvements to products and services.

Agenda

November 15, 2018

Webinar Information:
